Model	RB-2
Description	Breaker Retainer for BR, CH, TH, HOM, QO & QP Breakers
	
WARNING Only qualified personnel should be working on the panel box An amateur should <u>NEVER</u> open the panel box Please follow all rules and regulations of the National Electric Code	

Step 1: Turn off main breaker, and any breakers feeding panel. Remove panel cover.

Step 2: Determine location of breaker to have retainer installed on. Hold bracket on Breaker and mark holes to be drilled

Step 3: Drill 2 holes with supplied drill bit (5/32) and debur holes

Step 4: Install bracket over breaker and install 2 self-tapping ground screw in drilled holes using 5/16 nut driver.

Step 5: Install panel cover and turn on main breaker

Thank You for your support,

GenInterlock Team
